Join our PKL team to promote Lao Agrobiodiversity and its relationship with Lao culture, food, and products: Use it-don't lose it!

Opportunity: Promoting partnerships for expanding Agrobiodiversity content on PKL website

Specific Responsibilities:

1. Identify organizations and private sector actors who are involved in Agrobiodiversity-related programs, products and/or food and the resources they have which are valuable for PKL.
2. Identify key people within agro-biodiversity related organizations and engage them in providing information on their work, documentation, and interests into the PKL website on a regular basis.
3. Regularly meet with key people in key organizations to update information and promote PKL
4. Undertake literature searches in English and Lao languages to collect relevant information for PKL focal species for incorporation into PKL.
5. Assist with compiling data into the PKL database online
6. Undertake research and fieldwork to gather information on priority species to post on PKL
7. Translate academic information into people-friendly information to help more people understand agrobiodiversity

Qualifications:

Bachelor's degree in Biology, Environment Science, Agriculture, Forestry management and relative.
Available to work Full-time and travel to the province
Computer skills: good Microsoft office, basic photoshop
Good communication skills

Interested candidates apply to join our team by sending your CV to Keooudone Souvannakhoummane (PKL manager) at email: keooudone1988@gmail.com

Deadline: 31 January 2020

Note: PKL encourages gender and ethnic diversity in our teamwork
